BOOK DENTAL

(DENTIST BOOKING APP)

About Project

Hello User,

This is a Dentist appointment booking app based on ios platform where you need an apple device (iphone or ipad) in order to experience it.

In this app you are able to search the nearby clinics in your areas with the help of your postal code you will be provided with the clinic and you can select the clinic and doctor's address and image will be given for the selection.

You are also given an option to select the insurance and date/time of your choice for the appointment booking.

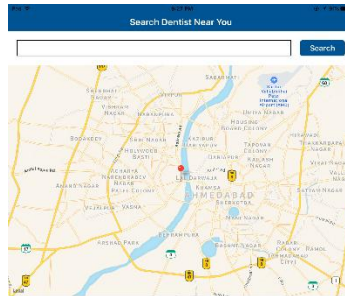

Screens

1st Option:

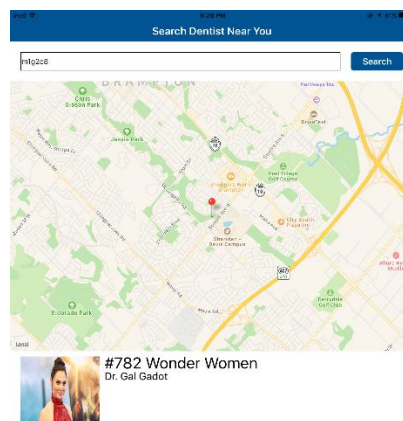

The above given screen is the very first screen you will see once you select the app to be opened. This screen will not last more than 3 seconds.

2nd Option:

The very first thing you will see a map and a text box where you have to put your postal code where you want to see the doctor and click the search button in order to allow the app the give you the option of clinic.

In the above screen you can see it will give the photo of the doctor and its address once you will put your postal code. And it will allow you to select the doctor for the appointment booking.
